

# CORNER SHOT® APPR™

Corner Shot Assault Pistol Rifle 5,56

- CS-APR 5.56 is a revolutionary weapon system that enables military and law enforcement to effectively observe and engage targets from around the corner / behind cover without exposing any part of the operators body and thus reducing the liability to the operator.
- The new CS-APR5.56 is based on the outstanding features and capabilities of the original CORNER SHOT® system, offers the increased firepower, extended range, accuracy and lethality of a 5.56 various ammunition. This system is also available for 7.62 and 9 mm APRs.
- When necessary, the APPR™ 5.56 may be removed from the CORNER SHOT® system and refitted with its' original stock and employed as a standard assault weapon.
- The CS-APR 5.56 uses standard M16/M4 magazines to shoot rifle grenade ammunition, antitank, anti personal, door breaching and non-lethal various ammunition .
